ALTAGETHER NEIGHBORHOOD CAPTAINS

State of the Neighborhood

Zone 55

October 2026

> “Join us next month for a State of the Neighborhood gathering — bring questions about rebuilding and how we can support each other.”

Presented by Alex Rivera · Jordan Lee

THE IMPACT

NEIGHBORHOOD CAPTAIN RECORDS

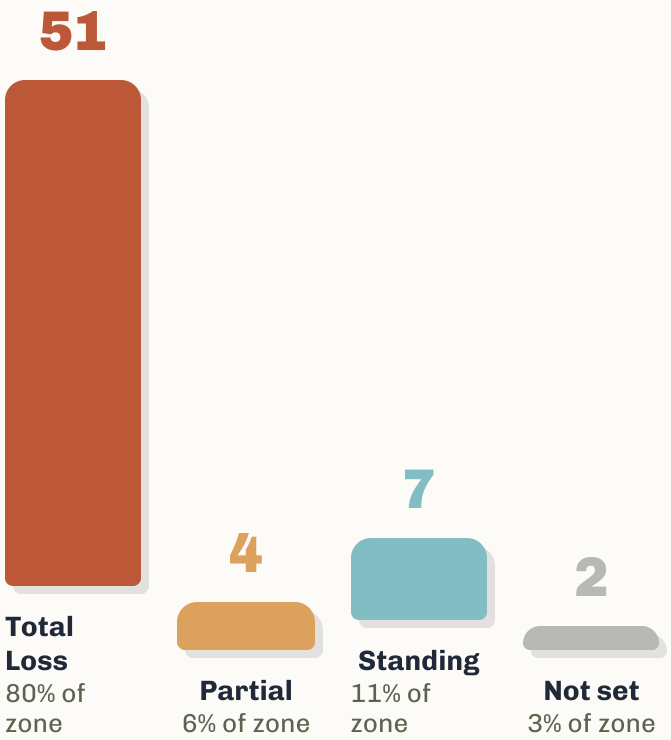

80% of addresses in our zone were total losses

51

homes lost

Of 64 addresses · 7 still standing · 4 partial damage

118 neighbors on our roster

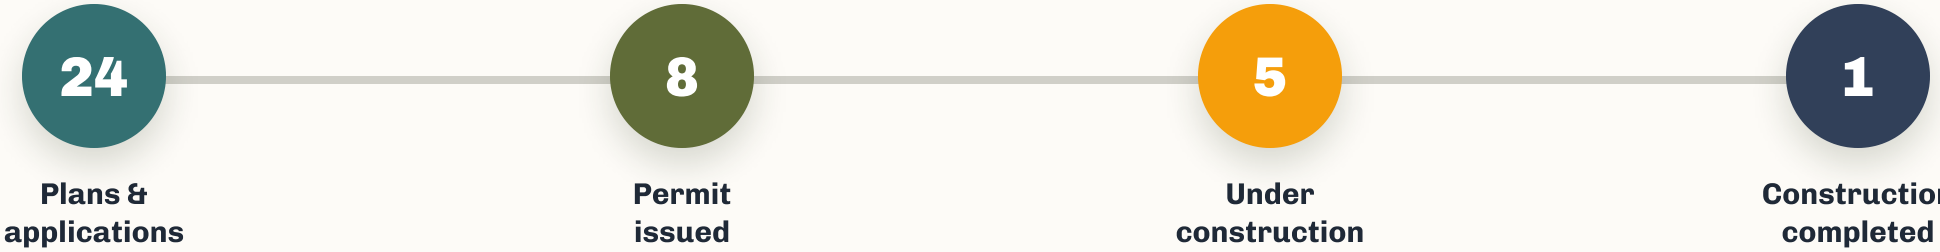

COUNTY RECOVERY · EPIC-LA

LA COUNTY EPIC-LA

Where rebuilding stands in the county system

Of 55 damaged lots, **38** have a matched Los Angeles County rebuild record (69%).

14 of those county-matched lots have reached *building permit issued* or further in the county system · **3** addresses show temporary housing activity

Data note. 6 addresses are missing APN numbers in our database, which can undercount permitting and sales figures.

These figures come from county EPIC-LA cases matched by APN — not from captain Build Status notes. No match does not mean no rebuild.

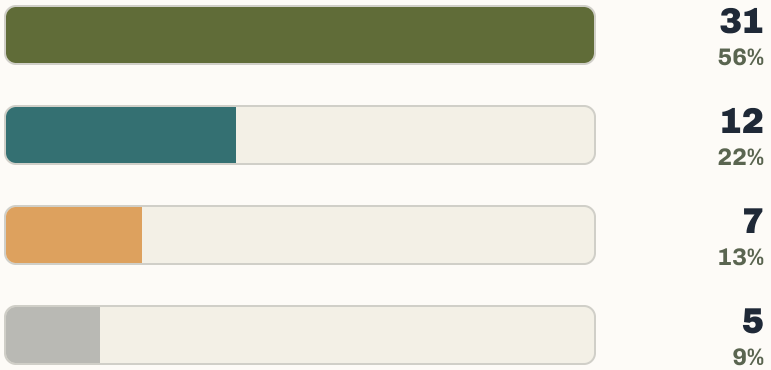

LOOKING AHEAD

NEIGHBORHOOD CAPTAIN RECORDS

What neighbors are planning

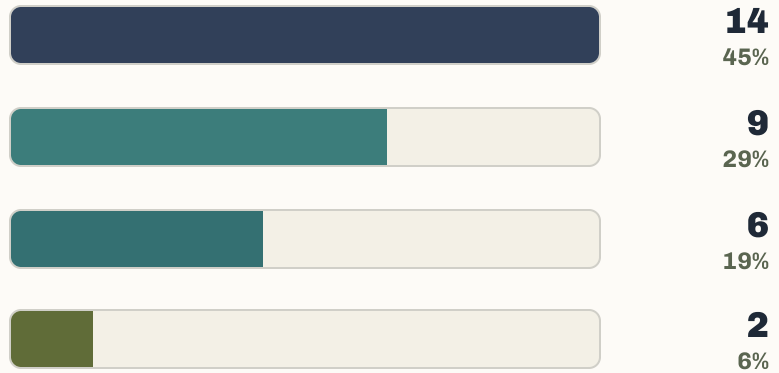

From conversations our captains have logged — separate from county permit milestones on the previous slide.

Address plan · 55 damaged lots

5 homes sold since the fire (count only)

Build status · 31 planning to build

“Permits & Pre-Construction” here means a captain-recorded stage — not the same as a county-issued permit in EPIC-LA.

CONVERSATION

Let’s talk about our neighborhood

The numbers only get us started. Your voice shapes what we do next.

1

What are your biggest concerns right now?

2

What information or resources would be most helpful?

3

What should we be working on together?
